<u>GapMinder</u>

Founded in Stockholm by Ola Rosling, Anna Rosling Rönnlund and Hans Rosling,

GapMinder is a non-profit venture promoting sustainable global development and

achievement of the United Nations Millennium Development Goals. It seeks to

increase the use and understanding of statistics about social, economic, and

environmental development at local, national, and global levels.

Since its conception in 2005, Gapminder has grown to include over 200 indicators,

including gross domestic product, total employment rate, and estimated HIV

prevalence. Gapminder contains data for all 192 UN members, aggregating data for

Serbia and Montenegro. Additionally, it includes data for 24 other areas, generating

a total of 215 areas.

GapMinder collects data from a handful of sources, including the Institute for Health

Metrics and Evaulation, US Census Bureau's International Database, United Nations

Statistics Division, and the World Bank.
